聖經KNOX VERSION試題

BIBLICAL KNOWLEDGE

Knox Version _

Time allowed - Two hours

Answer FIVE questions only, ONE from Part I and FOUR from Part II. Oredit will be given in all questions for short quotations, but only where these quotations illustrate the answer.

PART

Answer ONE only of the questions 1, 2 and 3. The question you choose must be from a section you have studied.

Section A - PROPHECY IN THE OLD TESTAMENT

1. Write an essay showing how the Eighth Century Phophets regarded (a) the everyday life, (b) the popular religion, and (c) the political movements of their day.

Section B - THE LIFE AND TEACHING OF CHRIST

2. "And I tell you, that if your justice does not give fuller measure than the justice of the scribes and Pharisees, you shall not enter into the kingdom of heaven."

Write an essay on the teaching of the Pharisees concerning those points mentioned by Jesus in the Sermon on the Mount. Contrast the teaching of Jesus.

Section C - THE LIFE OF THE EARLY CHURCH

3. Write an essay describing (a) the way in which Christianity spread during the first thirty years, and (b) how various groups of people within the Roman Empire reacted to the Church.

PART II

Answer FOUR questions from this Part. Answer the first and one other question in each of the two sections you have. studied.

Section A -- PROPHECY IN THE OLD TESTAMENT

Answer question 4 and one other in this section.

- 4. (a) What happened to Rasin, king of Syria, and Phacee, king of Jsrael, after they conspired together against
 - (b) Why did the foreign tribes brought to settle in Israel' ask the Assyrians to allow an Israelite priest to live with them?
 - (c) Why did Assyria besiege Samaria at the end of Osee s reign?
 - (d) What did Amos promise to those who desired the "Day of the Lard"?
 - (e) How aid Amos answer Amasias when he told him to return to Juda to prophesy there?
 - (f) Why did Osee think that perhaps God would not completely destroy Israel? -
 - (g) What did Michaeas consider God required from man?

(朱完轉入第二賬第四頁)

· 本校茲徵聘下列教員:

能担任下列課程四種以上者:
社會人類學。 一)哲學社會系 高級講師或講師 或副講師二人 社會工作之理論與實際 三)英語文學系 英國文學課程 副講師一人

○須具有認可大學頭給之高級學位。 ○須曾從事研究工作或曾出版有價值及有創見之學術性著作。 ○須有適當且經認可之數學,研究,或行政經驗,其中至少五年係在認可之

(內)應徵副講師者須具備下列資格: 須具有認可大學頒給之學位並最好能略具數學經驗或會從事研究工作或實任

数員退休年齡爲六十歲。應徵者年齡以未接近退休年齡無原則·

附註:薪給待遇現正向政府洽請調整中

五、應徵者應具函連同應徵表及證件副本於六月二十日前寄本 校註册組、封外請註明應徵字樣。

凌第二張第三頁英文中學會考型經 KNOX VERSION 試題

日一廿月四年丑辛曆夏

- What did Isalas mean by "the vineyard of the Lord"? Why would it be destroyed?
- How was Isaias purged from sin before he was called by God?
- What sign did Isaias give to Achaz that Juda should be safe from the danger of the confederacy of Syria and Israel? What did the sign mean?

Describe how Jerusalem was pesieged in the days of Ezechias What was the reaction of the king and the prophets and what was the outcome?

Woe, too, upon the Assyrian! What is he but the rod that executes my vengeance?" . . . What did Isaias mean by this? What did he think would happen to Assyria and to Juda after the punishment he foretold was completed?

> Outline the political events from the time of Amos which led to the destruction of Israel.

tion B - THE LIFE AND TEACHING OF CHRIST

wer question 8 and one other from this section.

- a) What sign was given to Zachary to prove the truth of what the angel announced to him?
- (b) What two extraordinary events, which happened at the time of the birth of Jesus. proved to people that he was the Christ?
- Give two examples from the birth and childhood of Jesus Christ to show how Joseph and Mary respected the Jewish law.
- How was Jesus received in Nazareth and why did He not perform any extraordinary miracles there?
- Why was John the Baptist imprisoned by Herod? Why was he beheaded?
- Why did Jesus drive the ouyers and sellers out of the Temple?
- What lesson did Jesus teach from the incident of the poor widow at the treasury?
- Why did Jesus tell the parable of the Lost Sheep and what lesson did He teach by it?
- Why did Jesus rebuke Peter after his confession of Jesus as the Christ?
- Why were the chief priests, the temple officers and the elders able to take Jesus prisoner?

Jesus and His Disciples were frequently accused of not obeying the law of Moses. Give three instances of such Raccusations and explain in each case how Jesus defended their way of acting.

湯Jesus was tried before three different authorities. Who were these authorities and why was Jesus made to undergo. Hithree trials? What did each of these authorities think of m Jesus?

Thow how the Apostles were wrongly ambitious and explain how on three occasions Jesus tried to correct their ideas on this point

差 Mon C - THE LIFE OF THE EARLY CHURCH

question 12 and one other from this section.

- Where and how did the Apostles and their earliest followers worship God?
- Why were John and Peter not punished after they had cured the lame man at the gate called Beautiful?
- what were the accusations brought against Stephen before the Council?
- Why was it strange that Peter visited Cornelius? Why did he do it?
- How did Peter escape the fate of James, the protner of John?
- 護安・幕全所晶器を(f) Why did Barnabas and Paul restrain the people at Lystra from bringing sacrifices?
 - Why did Paul refuse to leave the prison at Philippi?
 - Why did Paul move to Justus' house in Corinth?
 - Why did the soldiers want to kill Paul and the other prisoners before the shipwreck? Why were they not killed?
 - How did Paul spend his first two years in Rome?

Describe the choice of Matthias as apostie. Why was another apostle necessary? Give two reasons why Matthias awas a suitable person.

What do you know of the life and work of Philip, one of

How did Tertullus accuse Paul before Felix? How did Paul defend himself? What did Felix decide to do about Paul?

木工原理試題 英文中學會考

Time allowed ---- One hour and a half Answer five (5) questions, at least one from each section. All questions carry equal marks.

Section A. Materials.

Name four (4) different timbers which are in common use Hong Kong. State clearly the characteristics of each.

Show clearly, with the aid of nest sketches, two (2) common ways in which timber is converted from log form to sizes which ere suitable for use Etate the advantages and disadvantages of each method.

Section B. Tools.

Describe clearly with the aid of sketches:

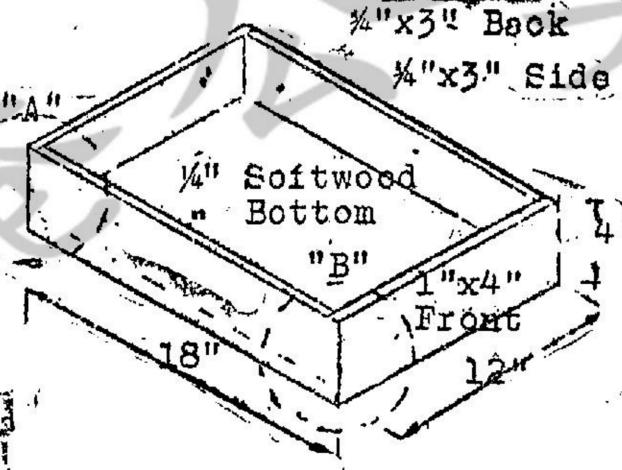

- (a) mitre box. .. b) Mortice gauge

In each case state clearly for what purpose the tool is used.

You are entrusted with a set of woodworking handtools. State how you would maintain them and keep them in working condition. Name any epeciel tools that would require extra care and ettention to keep them in good condition.

Section C: Construction and Design

'It is required to construct a' drawer as shown in the sketch. By neat dimensioned sketches show, clearly the joints you would use at "A" and "B" when the front is. of hordwood and the sides ere of 题 eoftwood.

With the sid of nest dimensioned; Eketches show how you would suggest!

fixing the bottom of the drawer shown in question 5, remembering thet allowance must be made for shrinkage.

Section D. Processes and Finishings.

A sheet of glass %" thick is to be fixed in a timber frame. The overall size of the frame is 18" x 15". The timber frame consists of four pieces of timber each 1%" x 2". Show clearly the mothod you would use to glaze the frame.

- (a) Why is it necessary to apply paint or some other suitable finish - to external woodwork?
- (b) An external door, which her e painted surface finish that is in bed condition, has to be repainted by you. State how you would prepare the door for repainting.

對文中學會考 英文作文(夜梭)試題(續昨)

You stated that you would be away next month but did not give us the name and address of your agent. Also, Ild you please let us know if you wish our agent to call on before June 1st to discuss a settlement of this matter, and dly confirm, for his benefit, that the address given in your tter is your business address.

Yours faithfully)

M.K. Leung, Complaints Secretary

Section B (70 marks)

te an essay on ONE ONLY of these topics. Your essay should 稻時。二落時也about 400 words in length.

> Imagine you attended a meeting at which a factory-worker and en office clerk each spoke about the importance of his for her work to the community. Give the arguments (NOT in conversational form) that each put forward and) state your own opinions on the relative importance of the work of each of

Of what value to the world today are international) meetingslof members of the medical profession?

If you had to decide between limiting the number of vehicles on the roads in Hong Kong and improving the roads themselves, which would you decide in favour of and why?

You have been asked to choose two companions for a journey of six weeks across mountainous and desert country, and to make your own arrangements for supplies. Give reasons for your choice of companions and for the supplies you would arrange to take.

The career that you would advise your best friend NOT) to take up and why.

擅論考會學小

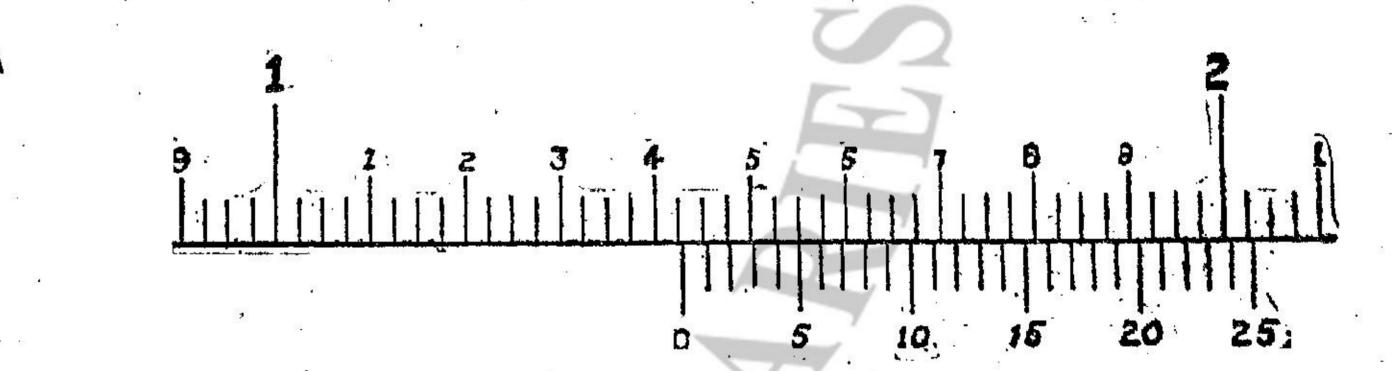

英文中學會考 銅工原理試題

METALWORK THEORY]

Time allowed - The hours

Answer FIVE questions.

- Show, by a series of neat freehand sketches, the general shape and the uses of inside, outside, and odd-leg or jenny calipers.
- An eye (ring) with an internal diameter of la inches is to be forged on the end of a & inch diameter mild steel rod. By a series of sketches, approximately full size, show how you would forge the eye.

- (a) State the reading on the enlarged portion of the vernier scale shown in Figure 1.
- (b) What measurement is represented (i) by each division along the barrel of a 0-1" micrometer, (ii) by each division around the thimble? State the reason in each case.
- What is meant by turning on a lathe between centres? What makes the work rotate if it is not fixed in the chuck? Use sketches freely in your answer. How would you set the lathe tool to the correct height for turning a piece of mild steel?
- State the steps necessary to anneal a piece of carbon tool steel bar before filing to shape for use as a small punch. How would you eventually harden and temper ait? In raising a brass bowl, it is necessary to anneal the metal between successive steps of raising. Why is this necessary, and how is it carried out? State the temperatures involved in heating the metal as indicated by the colour, when answering both parts of this question.
- How would you clear a badly "pinned" file, and what steps could you take to reduce the likelihood of pinning? Show by arrows on a sketch, the cutting motion which should be given to a file for filing a cylindrical shape? What is meant by drawfiling and why is it used?
- Give the names and approximate compositions of any alloys you know which are made from the following groups: (a) copper and zinc, (b) lead and tin, (c) copper and tin, (d) aluminium and copper, (e) iron and carbon.
 - 8. Make sketches and give the use of (a) pottoming stake, (b) creasing stake, (c) half moon stake, (d) seam set?

下二第非七第

英文中學會考 初級數學二試題

ELEMENTARY MATHEMATICS II

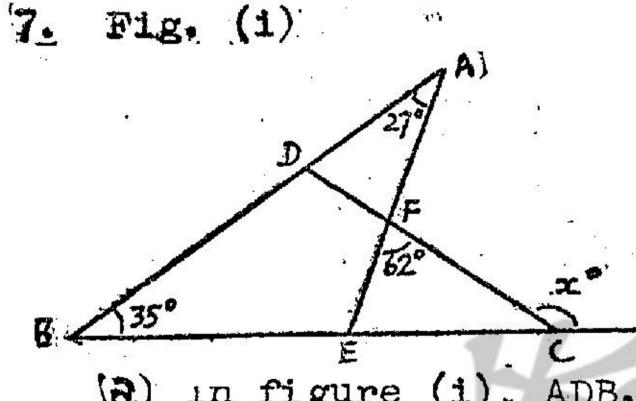

Time allowed = - Two_hours

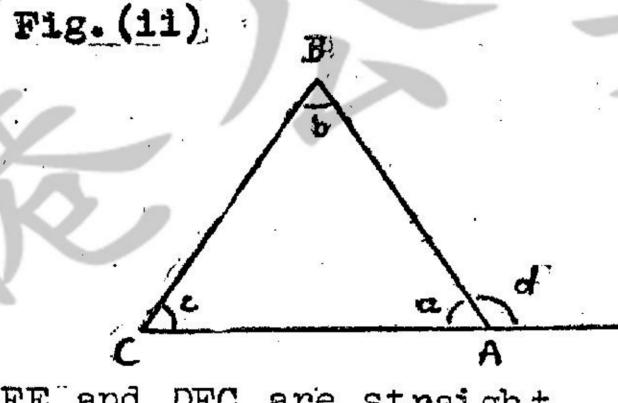

Answer only TEN questions.

- 1. (a) If $\sin X = 7/25$, find, without using tables, the values of the other five ratios.
 - (b) If B = 90° A, simplify
 sin A sec B cos A cosec B

質三第張七第

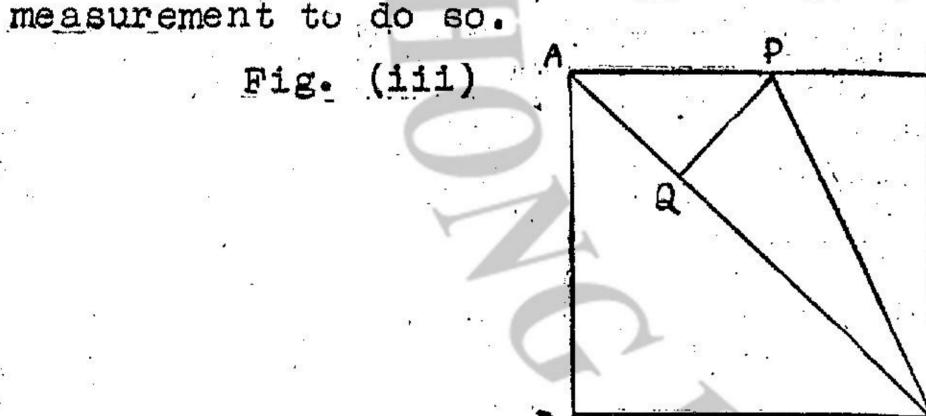

- 22 (a) Without using tables, find the value of sin 60° cos 30° + sin 45° cos 45°
 - (b) Find, by construction, the value_of_sec40_.
- 3. Using tables, find the values of (a) cot 72° 15' x sec 72° 15'
 - (b) <u>cos 25° 32°</u> cot 25° 32°
- when the sun is 42° above the horizon, a vertical pole casts a shadow 30 ft. long on level ground. Find, by calculation, (i) the height of the pole, (ii) the length of the shadow when the sun is 67° above the horizon.
- 5. A ship sails 5 miles northeast, and then 4 miles northwest. Find, by calculation, its distance and bearing from the starting point.
- A chord of a circle is 10 cm. long, and it subtends an angle of 55° at the centre. Calculate the radius of the circle to the nearest millimetre.

- (a) in figure (i), ADB, BEC. AFE and DFC are straight lines. Find x.
- (b) In figure (ii), CAD is a straight line, 7a = 2d, and 4b = 3c. Find the values of a, b, c and d.
- Draw a quadrilateral ABCD in which AB and CD are parallel, and AB = 9 cm., BC = 6 cm., CD = 4 cm., and AD = 5 cm.

 Calculate the area of ABCD, making any necessary

In figure (iii) ABCD is a square. 'CP is the bisector of the angle BCA. Q is a point on CA such that CQ = CB. Prove that AQ = QP = PB.

10. Draw a triangle ABC right-angled at A, with \(/B = 30^\text{O} \) and BC = 8.7 cm. Divide the side AB into five equal parts geometrically and measure the length of one of these parts to the nearest millimetre.

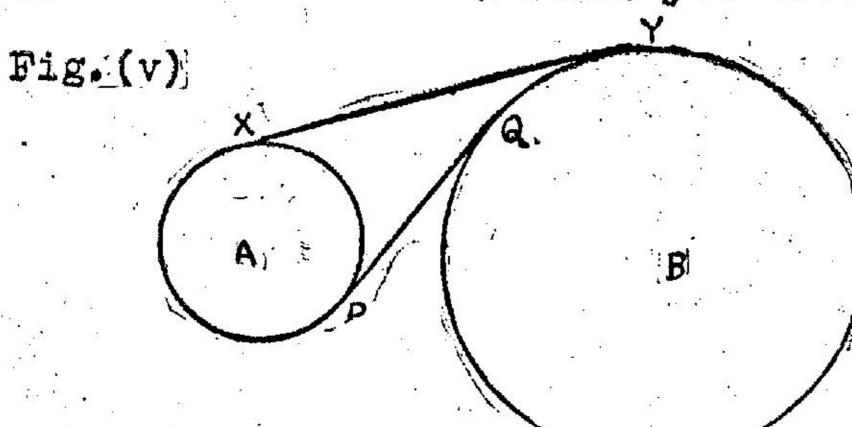

Use ruler and compasses only, and leave all your construction lines clearly visible.

In figure (iv) the chords PQ and RS of the circles PRQS, centre 0, intersect at X.

If \(\text{OXP} = \(\text{OXS}, \text{-prove that } \(PQ = \text{RS} \).

(HINT: Drop perpendiculars OM. ON (from O on to PQ and RS).

In figure (v) the two circles, centres A and B, have radii $6\frac{1}{2}$ cm. and $13\frac{1}{2}$ cm. respectively. A and B are 25 cm. apart. Find, by any method you like. the lengths of the two common tangents PQ and XY.

英文中學會考 歷史科試題

HISTORY

World History: 1783 - 1941.
Time allowed - Two Hours

FIVE questions are to be attempted. ONE question from Parkar must be attempted. The questions you answer from Part I must be selected from at least TWO groups.

You will be allowed an extra ten minutes to read and study the questions. No writing may be done during this time.

PARTI

Group:1:- Europe,1789 -. 1939.

- 1. Give an account of Napoleon's career from 1793 to 1804 of Then explain what you think to be the important reason XX for his rise to power
- What arrangements were made at the Congress of Vienna Germany and Italy? Discuss briefly the general reason why these arrangements changed between 1815 and 1871.
- 3. Say what historians mean by the "Eastern Question"? what ways did Unkiar-Skelessi (1833) and Berlin (1878 show the difficulties of solving the problem?
- 4. Write an account of the main developments in inland transport in England between 1750 and 1850.
- 5. EITHER 6tate the terms and discuss the importance of the Parliamentary Reform Acts of 1832, 1884-1885. 2 1918,

 OR Describe the main advances in medical knowledge and practice in the 19th century.
- 6. Give an account of the reforms made in Russia under Alexander II. How far were they successful?
- 7. Give an account of the pre-war crises in Europe between the 1905 and 1914, showing how they led to the First World war.
- 8. What was the League of Nations and under what circumst was it founded? Using your knowledge of the period 1919 1939, would you say that it was a failure?

Group II - The British Empire and Commonwealth, 1783 - 1941 and the United States, 1783 - 1941.

- g. Describe the extent and organisation of the British Empire in 1783.
- 10. Give an account of the work of Lord Durham in Canada 知識 assess the results of his policy.
- Il. Briefly describe the part played in Commonwealth history by any two of the following:
 (a) Gibbon Wakefield, (b) Sir George Grey, (c) Joseph Chamberlain, (d) Lord Lugard.
- 12. Give an account of the circumstances of two of the following and show their importance in the history of South Africa:—

 (a) The Great Trek, (b) Majuba Hill, (c) The Jameson

Raid. (d) Vereeniging.

- 13. Describe the main details of the American Constitution agreed upon in 1787 and point out its merits at the till
- Illustrating your answer with a simple map, tell briefing how the United States expanded its territory between like and 1853.

ា សម្រាជ្ញាធ្វេញ ស្រ្តាការ ទៅ ស្ពី ស្ពី ស្ពី ស្ពៃ សាការ សេរីស្លីការ៉ា ស្ពៃលស្នាការសំណាយសំណាយសំណាយសំពេ

- 15. Give an account of the career of Abraham Lincoln between 1860 and 1865. Attempt to assess his importance.
- 16. What indications were there before 1914 that the United States might one day become a world power?

Group III - The Far East, 1783 - 1941.

- 17. Compare and contrast the Treaty of Nanking with the arrangements made by China with foreign powers in 1858 1860.
- 18. What were the causes of the "Boxer rebellion"? Discus rehellion's immediate results down to 1905.
- Discuss the influence of (a) Tsu Hsi, (b) Yuan Shih Ka (c) Sun_Yat_Sen_on_the Chinese revolution_of_1911_to_1

未完轉入第七張第四頁

英文中學會等 數學二試題

MATHEMATICS II

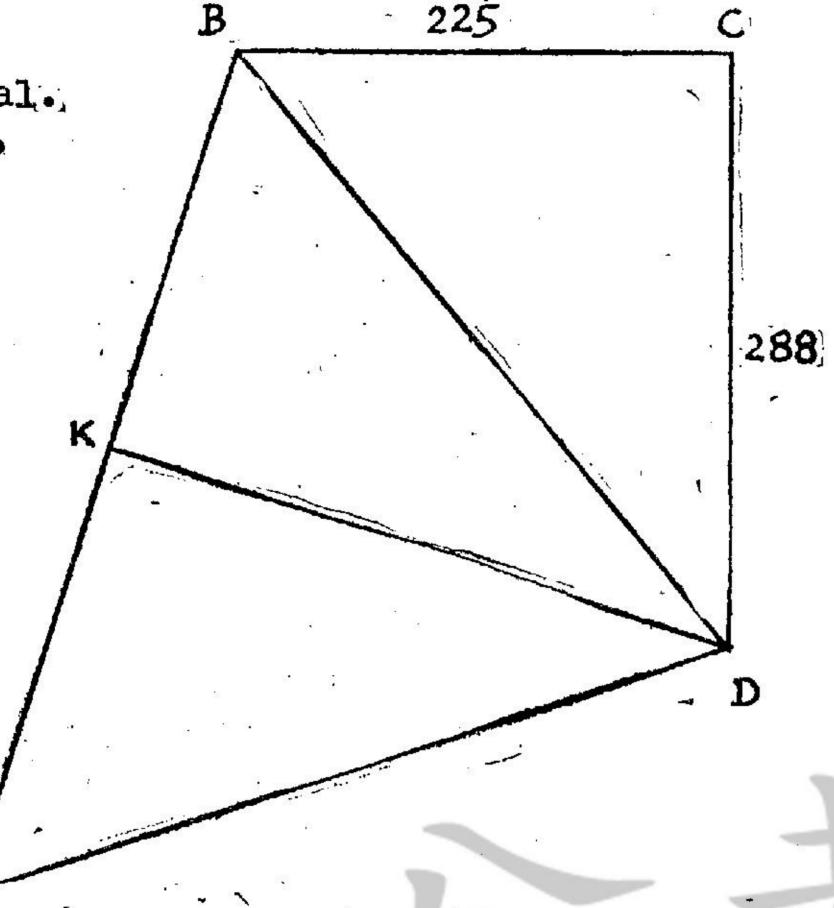

Time allowed - Two nours

more than ten questions may be attempted.

question has ten marks. Where a question is divided parts, the marks for the parts are approximately equal. tables are used, answers should be given as accurately tables permit. mmay be taken as 3.142, and one as 57°18'.

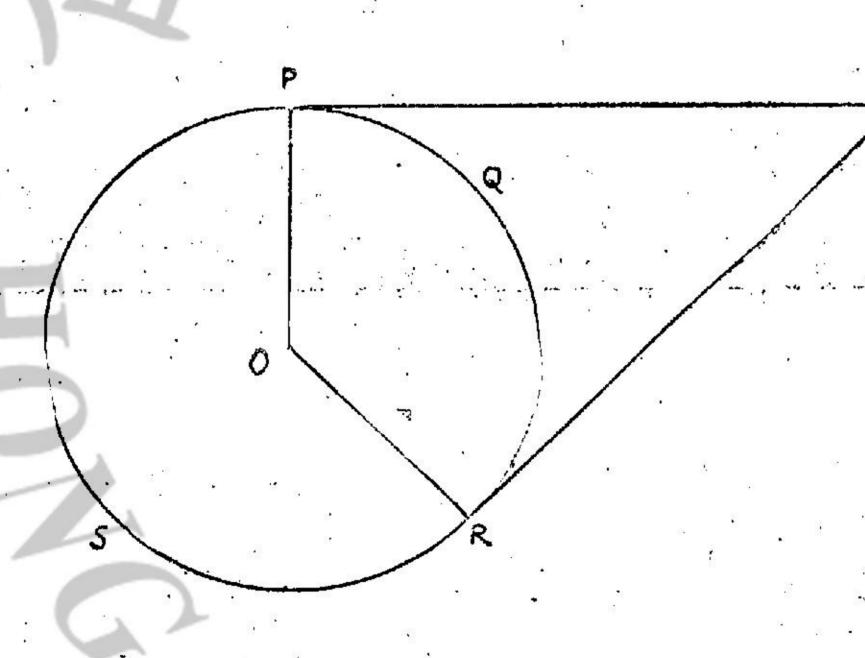

BCD is a quadrilateral. The angle ABC is 1100, and the angle BCD is 900. BC = 225 mm., D = 288 mm. K is the foot of the Derpendicular from D'tr AB. Calculate the angle DBC and -the length DK.

2年十五國民華中

- (i) Find by cables the angle A, which lies between O and 1800, if $\frac{1}{2} \cos A = \frac{0.8007 \cos 55034}{\sqrt{(4 + 4 \cot^2 66040^4)}}$
- Find without tables the value of (a) $\sec 60^{\circ} + \sin 210^{\circ} - \cot 315^{\circ}$
 - (b) $\cos^2 \frac{5}{6}\pi \csc \frac{11}{6}\pi \cos (-\frac{\pi}{3})$

and RT are angents. the length of the arc PSR s 12 ins. alculate the 須必道之學為he area of the whole figure

Implify:

 $(\sec x + \csc x)^2 - (\tan x + \cot x)^2$:

是看道 and prove:

 $\tan A - \tan B = \frac{\sec^2 A - \sec^2 B}{\tan A + \tan B},$ where A and B are any angles.

Find all the solutions between 0 and 360 of: $4 \cos^2 x + \cos x = 2 \sin^2 x$

From Shatin, the distance and bearing of Sneung Shui are miles and 335 (N.25 W.). rom Tai O, the distance and bearing of Shatin are 13 miles and $62\frac{1}{2}$ (N. $62\frac{1}{2}$ E.). alculate the distance and bearing of Tai O from weung Shui.

付支都劉賁的你 aw the graph, from x = 0 to x = 50, of $= (\sin x^{\circ} + \tan x^{\circ})^{2}$

adding a straight-line graph, find an approximate

 $(\sin x^{0} + \tan x^{0})^{2} = 60 - x.$

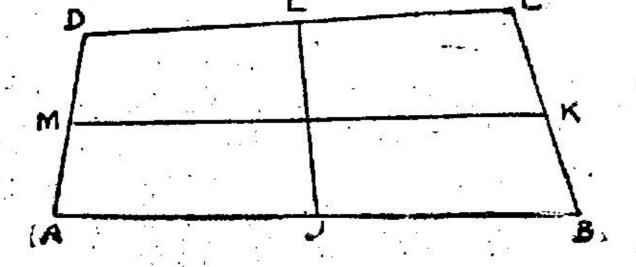

Cales: on the x-axis, take 1 inch for 10 units; on the y-axis, take 1 inch for 3 unit.

Coerch is a regular octagon. ABPQR is a regular went agon inside the octagon. ABXY is a square outside

pentagon. Calculate the angles of the triangle HRY.

BC is an equilateral triangle. BC is produced to D so that BC CD. Calculate the ratio of the areas. of the squar on AD to the square on AB.

ABCD is any quadri - & lateral. J, K, L, M are the mid-points of the sides. Prove that JL and KM bisect each ot er.

接第七張第三頁英文中學會考歷史科試題

20. Describe events in Japan between 1853 and 1868. Then explain how the weaknesses of the Tokugawa led to their overthrow.

门四月六年一六九一曆公年十五國民華中

- What issues were involved in the "Manchurian Question" and describe the course of events between 1905 and 1934.
- 22. Give an account of the influence of the United States in the Far East from 1914 to 1941. How far would you say that U.S. policy was successful?
- 23. What were the causes of the war between China and Japan in 1937? Give an account of Japanese activity between 1937 and 1941.
- 24. Write short historical notes on Five of the following in connection with the Far East:-(a) Lord Palmerston, (b) Sir John Pope Hennessy,

(c) Commissioner Lin, (d) Kowloon and the New Territories, (e) Hong Kong University, (f) Conduit Road, (g) Treaty

of Portsmouth - 1905. (h) General Gordon. PART II

- 25. Would you say that the French Revolution was a successful revolution? Ellustrate your answer from the events of 1789 to 1795.
- 26. What events in European history between 1840 and the formation of the League of Nations in 1919 indicated that there was a desire for co-operation between the nations?
- 27. Could independence have been granted to India before 1941? Illustrate your answer by reference to events between 1909 and 1941.
- 28. What disadvantages have been shown in the working of the American constitution in the 20th century? Give examples.
- 29. How far did the history of Hong Kong between 1856 (events leading to the second China war; and 1912 reflect general events in the Far East?
- 30. Assess some or the advantages which China may have gained indirectly from Japanese aggression in the period 1894 to
- 9. UVW is a triangle in which the angle UWV is greater than the angle UVW. Prove that the bisector of the angle VUW meets the perpendicular bisector of VW on the circumcircle of the triangle UVW.

Hence show that, if M Is the mid-point of VW, the angle MUV is less than the angle MUW.

10. Construct, with ruler and protractor, an isosceles triangle ABC in which AB = AC. BC = $2\frac{1}{2}$ inches, and angle BAC is

On the same figure, construct the locus of all points at which the line BC subtends an angle of 53. (i.e. if P is any point on the locus, the angle BPC must be 53).

Also on the same figure, construct the locus of all points distant 11 inches from the line BC.

Hence find by measurement the other angles of a triangle; QBC, in which BC is $2\frac{1}{2}$ ins., angle BQC is 53, and the area is 17 square inches.

(NOTE. Statements and proofs of constructions are NOT required, but all construction-lines must be shown clearly.)

ll. P is a point on the straight line! AB such that

> $AP^2 = PB.AB$ PQ = BQ = AP.

Prove that BQ touches the circumcircle of the triangle APQ.

Hence calculate the angles PQB, PAQ, QPB, and QBP.

12. X and Y are the centres of, two equal circles, each of radius 1 inch. The large circle, centre Z, touches one small circle at T and passes through the centre Y of the other small circle. XZ is perpendicular to XY., XY produced meets the circle, centre Y, at U. XZ produced meets the circle, centre Z, at V.

> (i) Prove that the large circle, centre Z, is of radius 23 inches.

- (ii) Calculate the area of the quadrilateral UYZV. and its perimeter.
- (iii) Prove that the quadrilateral UYZV is cyclic.
